

When scientists share their own ideas, they may say:

I observed that _____.

I noticed that _____.

My data shows _____.

I think _____ because _____.

I wonder _____.

When Scientists respond to others, they may say:

Can you explain to me _____?

Why do you think _____?

What evidence do you have?

Are you saying _____?

I agree with _____
because _____.

I respectfully disagree
with _____ because _____.
