

OESD 114 and Kitsap Community Resources offer several programs to assist Kitsap and North Mason County families and children in reaching their family and developmental goals.

home based

This program serves families from pregnancy and children through age three. A qualified home visitor will visit and support you and your child once weekly for 90 minutes. Bi-monthly in-center Parent-Child Activity Days provide an opportunity for children and families to interact. The program is provided at no cost to those who qualify.

full day preschool

This program serves children from six weeks through five years old. Families must have a demonstrated need for full day and full year services. Services are provided five days a week, for a minimum of six hours a day. EHS and HS services are provided at no cost to those who qualify.

Use of child care hours will require a child care subsidy.

part-day preschool

This program serves children from three to five years old. Services are provided part-time, three or four days a week. Classes are in session September through May with some year-round options available. Services are provided at no cost to those who qualify.

Our programs create and cultivate social skills, cultural pride, a sense of belonging, language and academic skills, respect for others, and self confidence.

ECEAP

(early childhood education assistance program)

school success

Experience and research tell us the importance of meeting a child's educational and developmental needs in their earliest years. School success is possible when families:

- Help make the crucial decisions that affect their child's education
- Feel connected to friends and community
- Have access to quality medical and dental care
- Eat nutritious meals and snacks
- Have home stability and safety
- Use positive parenting skills

Our goal is to provide families with the support and resources they need to meet these goals—and more!

our program

The enthusiastic and caring staff members of OESD 114 and KCR Early Learning & Family Services are eager to partner with you. In our programs, parents are recognized as the experts on their child. Cultural traditions, family strengths, and values are encouraged and honored.

Each day, your child will develop social and self-help skills through positive educational and social experiences. For children with special needs, our program and school district staff will collaborate to provide services and instruction designed to help them excel.

learning opportunities

Our programs create opportunities for you to meet other families, learn about community services, develop new skills, and participate in the following family activities.

Continuing Education and Job Skills

Receive support for education and/or to learn new job skills as a parent volunteer, Policy Council member, Parent Committee member, or substitute teacher

Nutrition Instruction

Learn more about nutrition and discover healthy, low cost recipes

Health Services

Work with staff to make family healthcare decisions, including identifying medical, dental, and community services

family education

Our parent education services teach you how to bring out the very best in your child. Take part in meaningful family activities aimed to increase literacy and reading skills, while strengthening your family's bond.
