ABOUT SCIENCE KITS ALLIANCE

The Olympic Science Alliance is a cooperative organization of regional school districts. Its purpose is to provide a cost-effective curriculum support system along with an appropriate level of professional development support in order to foster the development of science education systems within school districts and regionally.

2014-2015 Program Outcomes

- 11 school districts served at low cost, with value of basic kits exceeding \$700,000
- Kits loaned on 8 to 10-week rotation as a resource to enhance student learning
- Professional Development provided to teachers on how to effectively use the kits
