ABOUT SPECIAL SERVICES

The Special Services Department provides services to meet the needs of our districts region wide. Services include Occupational Therapy, Speech Therapy, Physical Therapy, School Psychology, Audiology, Teacher of the Visually Impaired, Orientation and Mobility, Nursing and Special Education Administration and teaching services, with the heaviest concentration of services being provided to the most rural and remote districts.

2014-2015 Program Outcomes

- Recruiting staff to serve in remote areas is challenging.
- Over its first four years, the very successful Special Education Related Services Cooperative has grown from 0 to 18 staff who serves 14 of our 15 districts and 5 districts outside of our region.
- We are proud that our Speech, Occupational, Physical and Audiology therapists have increased services to our Birth to 2 populations from a case load of 12 during the SY 2013-14 to the present caseload of 67 students.
