

Join the Washington State Fellows Network!

Why Should I Apply?

Are you looking for content-specific professional learning (PL) and connections with experts in content, pedagogy, and leadership? The Fellows Program is here to meet your needs! Unlike typical one-off PL sessions, our program offers a tailored experience over 1-3 years within a supportive cohort model. Our regional coordinators bring extensive experience to ensure your learning is relevant and impactful for your region.

Feeling isolated in your classroom? Join the Fellows Program and connect with a network of ambitious educators. Together, you'll enhance your leadership and teaching skills, making a greater impact on your students.

Looking for leadership opportunities in your building or district? The Fellows Program creates clear pathways for leadership, opening doors to new opportunities and advancing your career in education.

Get ahead of the curve! As a Fellow, you'll lead professional learning for the new standards adoption in early 2025. Become a key contact in your district, ensuring your colleagues and students are prepared for success.

Navigate the new TPEP rubrics with confidence! The Fellows Program supports understanding and implementing the revised rubrics for student growth, impacting evaluations starting in the 2024-25 school year. Become a leader in this critical area and help your district excel

You must apply to be considered! Applications are due October 31, 2025. Don't miss this chance to grow, connect, and lead with the Fellows Program!

Why Should I Support Teachers to Become Fellows?

Want to see real change from professional learning in your building? The Fellows Program empowers teacher leaders to implement strategies that bring new knowledge back to your school or district, creating lasting improvements.

Need advanced PL for your top-performing teachers? The Fellows Program offers tailored professional learning for high-performing educators, ensuring they continue to grow and excel.

Worried about costs? Schools can use School Improvement funds to cover substitute costs, making participation easy and aligning with your SIP goals and plans.

Support your teachers in becoming Fellows and watch them transform their growth into tangible, positive changes for your entire school community.
